

Your Solution, as-a-Service

Secure Managed Hosting for Medical Technology Solutions

Choosing a competent cloud service partner to collaborate with is one of the most important decisions you can make for your business. Trust your medical technology solution with CloudWave. Because we are a healthcare-only cloud, we are purpose built to provide the security and experience your customers require, with the service and performance you expect. CloudWave can help you transform your business to the cloud.

PARTNERSHIPS BASED ON INNOVATION & TRUST

CloudWave, a healthcare-focused Managed Service Provider, is the largest independent provider of cloud services in the healthcare market.

Our Healthcare Cloud is designed to meet the compliance and security requirements of a wide array of healthcare applications.

CloudWave partners with software and medical technology companies to host applications and data in our cloud, enabling the delivery of solutions "as a service". We currently support hundreds of healthcare and enterprise applications in our HIPAA and HITECH-compliant cloud, allowing our partners to provide a fully managed hosted platform to their customers, backed by aggressive service level agreements.

Our Healthcare Cloud guarantees high performance throughout varying workload cycles, evolving application usage, and system growth.

Our extensive experience designing, building, maintaining, and supporting systems enables partners to leverage a cloud-focused team that possesses a deep understanding of what is required to successfully bring your healthcare customers to the cloud.

CloudWave provides flexibility to accommodate unique technical requirements and business models. Our partners enjoy the market benefits of reselling or white labeling a profitable cloud service and meeting the needs of their customers.

CloudWave is a proud partner of
